REVIEW PAPERS

- Aboul-Enein HY → Stefan RI
Baiulescu GE → Stefan RI
Boldyrev IV → Isaev LK
Boley N → King B
Catterick T, Craston D, King B, Walker RF, Webb KS: Some recent developments in reference methodology with the United Kingdom 3
Craston D → Catterick T
Fridman GI → Isaev LK
Isaev LK, Lakhov VM, Karpov YA, Boldyrev IV, Paneva BI, Fridman GI: The Russian system for accreditation of analytical laboratories (centers) 169
Juniper IR: Quality issues in proficiency testing 336
Kannan G → King B
Karpov YA: Chemical analysis as a specific class of measurements 174
Karpov YA → Isaev LK
King B, Boley N, Kannan G: The correlation of laboratory performance in proficiency testing with other QA characteristics 280
King B: How valid are our QA assumptions: an examination of underpinning Axioms 326
King B → Catterick T
Lakhov VM → Isaev LK
Paneva BI → Isaev LK
Petit J-C: The quality approach and fundamental research: Working towards a constructive alliance (Part I) 274
Petit J-C: The quality approach and fundamental research: Working towards a constructive alliance (Part II) 458
Stefan RI, Baiulescu GE, Aboul-Enein HY, van Staden JF: Estimation of uncertainties in clinical analysis 225
van Staden JF → Stefan RI
Walker RF → Catterick T
Webb KS → Catterick T
Westgard JO: Analytical quality management: From rules and tools to technology and training 391
Westgard JO: Mapping the road to analytical quality with charts of operating specifications 79

GENERAL PAPERS

- Davies KW: Quality assurance in clinical chemistry laboratories in the UK 18
De Bièvre P: Do interlaboratory comparisons provide traceability? 342
Dybkaer R: From total allowable error via metrological traceability to uncertainty of measurement of the unbiased result 401

- Dybkaer R: Quality management, certification and accreditation in medical laboratories – the view of ECLM 90
Ehrmeyer SS, Laessig RH: The American (USA) perspective six years after implementation of CLIA'88 (Federal) regulations 93
Fraser CG: Quality specifications in laboratory medicine – current consensus views 410
Goryajeva LI, Paneva VI: Reference materials in the Russian system of accreditation of analytical laboratories 191
Huber L: How instrument manufactures help with accreditation and ISO certification 87
Jansen RTP: The European way to go: Virtual Central Laboratory 397
King B: Assessment of compliance of analytical results with regulatory or specification limits 27
Konopelko LA → Milman BL
Kovrizhnych MA → Milman BL
Laessig RH → Ehrmeyer SS
Milman BL, Kovrizhnych MA, Konopelko LA: Identification of chemical substances in analytical measurements 185
Paneva VI → Goryajeva LI
Paneva VI, Ponomareva OB: Quality assurance in analytical measurement 177
Petersen PH: Analytical quality specification for measurements reported on an ordinal scale 406
Plebani M: The Italian way: Accreditation and continuous quality improvement in clinical laboratories 84
Ponomareva OB → Paneva VI
Sandberg S: External quality assurance of test requesting and test interpretation 414
Williams A: An alternative to the effective number of degrees of freedom 14

SHORT CONTRIBUTIONS

- Aslan D: Charts of operational process specifications (OPSpecs charts): Quality-planning tools for analytical and medical needs 416
Ehrmeyer SS, Laessig RH: Point-of-care testing: Implementation and practice of cost-effective total quality management 419
Laessig RH → Ehrmeyer SS
Verstraete AG: The attitude of laboratory personnel towards accreditation 82
Williams A: Laboratory accreditation – where next? 31

PRACTITIONER'S REPORTS

- Anglov T, Petersen IM, Kristiansen J: Uncertainty of nitrogen determination by the Kjeldahl method 504
Antipin VP, Grigorieva AA: Reference samples for analysis of gas impurities in aluminium and titanium alloys: Features of production, certification and usage to ensure traceability of results 203

- Aslan D, Kuralay F, Tanyalsin T, Toprasku M: Use of averages of patient data for quality control 431
- Bar R: Statistical evaluation of stability data for assessing variability of an analytical method 235
- Brodsky ES, Klyuev NA, Jilnikov VG: Statistical quality control of PCDD/PCDF analysis using a total measuring data set 196
- Cuello JJ → Díaz RC
- De Pièvre P → Örnemark U
- Díaz RC, Sarasa MA, Ríos C, Cuello JJ: Validation of an HPLC method for the determination of p-dichlorobenzene and naphthalene in mothrepellents 473
- Falco F → Steele TW
- Filimonov LN → Karpov YA
- Fridman GI, Veller ND: A system of metrological assurance of measurement quality for the determination of chemical composition of light alloys and superalloys 199
- Gardner M, Taylor I: Calibration bias in the determination of polynuclear aromatic hydrocarbons in water 33
- Grigorieva AA → Antipin VP
- Grobecker K-H → Rossbach MM
- Häfliger D → Hübner P
- Hellsing K → Örnemark U
- Hendriksen-Wissink AJG → Penders TJ
- Holcombe DG: Living with multiple standards - QA in a multidisciplinary laboratory 133
- Holt DW, Johnston A: Delivering quality for the measurement of immunosuppressive drugs: current performance and future needs 427
- Hrubý V → Mestek O
- Hübner P, Studer E, Häfliger D, Stadler M, Wolf C, Looser M: Detection of genetically modified organisms in food: critical points for quality assurance 292
- Iosefzon-Kuyavskaya B: Quality control in residual solvent analysis: the static headspace gas chromatographic method 240
- Jilnikov VG → Brodsky ES
- Johnston A → Holt DW
- Karpov YA, Filimonov LN: Metrological estimation of sampling and sample preparation procedures as applied to analytical testing of technogenic origin raw material containing recoverable precious metal 247
- Klyuev NA → Brodsky ES
- Kristiansen J → Anglov T
- Kuralay F → Aslan D
- Kuselman I, Sherman F: Assessment of limits of detection and quantitation using calculation of uncertainty in a new method for water determination 124
- Lam JWH → Örnemark U
- Langier A → Steele TW
- Libeer J-C → Örnemark U
- Loikkanen M → Örnemark U
- Looser M → Hübner P
- Maier E → Valcárcel M
- Mestek O, Suchánek M, Hrubý V: Preparation and testing of standard solutions of cadmium, copper and lead 307
- Müller MM → Örnemark U
- Örnemark U, Van Nevel L, Taylor PDP, Robouch P, De Bièvre P, Uldall A, Loikkanen M, Müller MM, Libeer J-C, Steensland H, Hellsing K, Squirrell A, Penberthy LA, Schiel D, Tamberg T, Walczyk T, Lam JWH: The IRMM International Measurement Evaluation Programme (IMEP) IMEP-7: Inorganic components in human serum 463
- Overvliet GM: Practical experience of simultaneous accreditation and certification acquired in RIVM's official medicines control laboratories 139
- Penberthy LA → Örnemark U
- Penders TJ, Hendriksen-Wissink AJG: Practical implementation of a quality system in a hospital clinical chemistry laboratory 99
- Petersen IM → Anglov T
- Ríos A → Valcárcel M
- Ríos C → Díaz RC
- Robouch P → Örnemark U
- Rossbach M, Grobecker K-H: Homogeneity studies of reference materials by solid sampling - AAS and INAA 498
- Sager M: Current interlaboratory precision of exchangeable soil fraction measurements 299
- Sarasa MA → Díaz RC
- Schiel D → Örnemark U
- Schmidt P: Integrating accreditation, good laboratory practice and good manufacturing practice in an industrial analytical laboratory 129
- Sherman F → Kuselman I
- Siloaho M: Implementation of a quality system in a clinical laboratory. Some practical views 423
- Squirrell A → Örnemark U
- Stadler M → Hübner P
- Steele TW, Langier A, Falco F: The impact of LIMS design and functionality on laboratory quality achievements 102
- Steensland H → Örnemark U
- Studer E → Hübner P
- Suchánek M → Mestek O
- Tamberg T → Örnemark U
- Tanyalsin T → Aslan D
- Taylor I → Gardner M
- Taylor PDP → Örnemark U
- Toprasku M → Aslan D
- Uldall A → Örnemark U
- Valcárcel M, Ríos A, Maier E: A practical approach to metrology in chemistry and biology 143
- Van Nevel L → Örnemark U
- Veller ND → Fridman GI
- Walczyk TL → Örnemark U
- Wolf C → Hübner P

DISCUSSION FORUM

- Aboul-Enein H, Buzoianu M: Reply to Professor Neidhart's Letter to the Editor 111
- Bartels PCM, Schoorl M: Sense and nonsense of laboratory accreditation 107
- Bergman P → Levy S
- Boley NP: Do we need to accredit proficiency testing schemes? 347
- Buzoianu M → Aboul-Enein H

- De Bièvre P → Peiser HS
 Dijkman JHM → Scholten R
 Dybkaer R, Örnemark U, Uldall A, Richter W: Metrology in laboratory medicine – A necessity 349
 Frank A → Levy S
 Hibbert DB: Method validation of modern analytical techniques 352
 Kadis R: Metrological language in chemistry: New proposals versus “good old” terms 153
 Kuselman I: The concept of population and maximum difference between two results of analysis 511
 Lepek A: The metrology of unstable measurands 256
 Levy S, Bergman P, Frank A: Quality assurance in forensic science 253
 Muijlwijk R: Is metrology in chemistry really special? 477
 Örnemark U → Dybkaer R
 Peiser HS, De Bièvre P: Traceability in measurement – time for an update? 154
 Prichard E: Basic skills of analytical chemistry: do we take too much for granted? 37
 Richter W → Dybkaer R
 Scholten R, Dijkman JHM: The Virtual Central Laboratory approach for the retrieval and management of clinical laboratory data for clinical studies 434
 Schoorl M → Bartels PCM
 Uldall A → Dybkaer R
 Visser RG: Is accreditation useful for quality improvement? 108
 Wegscheider W: On the existence of primary methods of measurement 478

POLICIES AND CONCEPTS

- Ackerman E → Grouls R
 Aho H, Kociba P: Accreditation of pathology laboratories in Finland 480
 APLAC-EAL Policy on Traceability 259
 Beaumont J: Accreditation in the United Kingdom: responding to needs or “changing the goalposts”? 39
 Bedson P, Rudd D: The development and application of guidance on EQ of analytical instruments: High performance liquid chromatography 50
 Berridge H → Ríos A
 Boenke A → Ríos A
 Dvorkin V: External quality assessment schemes for clinical analysis in Russia 207
 Fajgelj A: Harmonized guidelines for the use of recovery information in analytical measurement 512
 Felber H → Hässelbarth W
 Gillespie A, Upton S: Marketing valid analytical measurement 45
 Goldschmidt HJM → Van Merode GG
 Groothuis S → Van Merode GG
 Grouls R, van de Laar W, Ackerman E: The reference information model for Dutch hospital pharmacies (RIZA): an aid for implementing a quality system and continuous quality improvement 111
 Hässelbarth W, Zschunke A, Felber H, Wampfler B: Shared responsibility for metrology in chemistry 158

- Hunt A, Taylor J: It is never too early to introduce measurement and quality concepts: a proficiency test competition for schools and colleges 43
 Jacobsen HS → Ríos A
 Karlberg B → Ríos A
 King B: The establishment of an Australian National Analytical Reference Laboratory (NARL) 357
 Kociba P → Aho H
 Libeer JC: Blood banking quality: minimum requirements for TQM 436
 Lindholm AB → Ríos A
 Lynggaard-Jensen A → Ríos A
 Ramendik GI: New policy in the accreditation of testing and calibration laboratories in Russia 211
 Reber K: A combination of accreditation and certification in an evolving process at EMPA: A management system to meet ISO 9001, ISO 14001 and EN 45001 156
 Ríos A, Lynggaard-Jensen A, Jacobsen HS, Whiteman R, Wacheux H, Karlberg B, Lindholm AB, Stenström T, Berridge H, Boenke A: The ETACS European project for testing the comparability of sensors and analysers – Part 1: Laboratory tests 512
 Rudd D → Bedson P
 Stenström T → Ríos A
 Taylor J → Hunt A
 Upton S → Gillespie A
 van de Lar W → Grouls R
 Van Merode GG, Groothuis S, Goldschmidt HJM: Workflow management: changing your organization through simulation 438
 Wacheux H → Ríos A
 Walker RF: Accreditation of reference material producers 360
 Wampfler B → Hässelbarth W
 Whiteman R → Ríos A
 Zschunke A → Hässelbarth W

LEGISLATION AND NORMS

- Business alert 258
 Shinton K: Standardization of quality management in the medical laboratory 442
 Walsh MC: Revision of ISO guide 25 365

MEETING REPORTS

- 62, 114, 223, 259, 261, 313, 368, 370, 446, 483, 517, 520

INTERLABORATORY PROGRAMMES (international)

- 64, 115, 159, 214, 263, 314, 377, 447, 485, 487, 522

TERMINOLOGY AND DEFINITIONS

- Holcombe D: Alphabetical index of defined terms and where they can be found Part I: A–F 525

BOOK REVIEWS

- 161, 316, 265, 488

NEW REFERENCE MATERIALS

- Millar RG: Matrix reference materials – provision in Australia 371
Noble B: The synthesis and characterization of pure substance reference materials for forensic, agricultural and drugs-in-sport analysis 374
Reference materials for pharmaceutical analysis 262
Thurlow K: New CRMS from LGC 63
Visser RG: The Institute for Interlaboratory Studies supplies Reference Materials for the petroleum and petrochemical industry 158

RESEARCH PROGRAMMES

264, 524

ERRATUM

386

INTERNATIONAL COMMITTEES

67, 116, 118, 162, 266, 267, 448, 449, 489, 492, 531, 533

CALENDAR OF EVENTS

71, 119, 163, 215, 268, 318, 379, 451, 494, 534
